On-Page SEO Optimisation Report

Prepared by True North Innovations for Dex Flooring

dexflooring.com.au · 2 July 2026 · comprehensive on-page SEO optimisation, just completed

Executive summary

We have just completed a comprehensive on-page SEO optimisation across the Dex Flooring product catalogue. Every product page was reviewed and given a search-optimised **page title** and **meta description** — the text that decides how each page appears in Google and how many shoppers click through. The work adds local ("Melbourne") and product keywords, a clear benefit, and a call to action within Google's display limits.
